JumpStart 1st Grade is an updated version of the 1995 JumpStart 1st Grade title. This is an educational game for children aged five to seven years in first grade according to the U.S. curriculum updated for this period. There is also a British version. The basic concept is identical to the original game. The player must help the character Frankie the dog on the treasure hunt by collecting clues. This is done by completing various activities on the school island. Hunting can begin as soon as three tracks are collected. Each clue provides a clue as to how Frankie drives the ship. The player must answer the question for each track to get Frankie on the boat, in the right direction, and finally on the island with the treasure. Coins are available for each treasure found and hunting is completed after finding six treasures. The amount of coins, ranging from 50 to 1,000, determines the rank of the player. The teacher must answer the question for each track to get Frankie on the boat, in the right direction, and finally on the island with the treasure. Lost and Found is a new activity that teaches synonyms, antonyms, homophones, homonyms, homographs, and rhyming words. The next new one is Beanbag Shooter. It is played with Ms. Nobel based on spinning tiles that show land animals, water animals, food, and means of transport. The teacher gives a guide and the correct tiles must be selected for the answer by shooting a beanbag. Only a limited number of shots are available to win, and four correct answers in a row are required to win. There are three difficulty levels for this activities are often based on existing ones, but with a new twist. Other activities in this release are Hall Pass (Narration of Time), Snack Machine (Learning about the Value of Money), Alphabet Soup (Alphabet), Food Machine (Measures Through Recipes), Pizza Maker (Shapes and Divisions), Organ (Musical Instruments), Paint Set, Pogo Sticks (Mathematics), and Sand Box (singular/plural - parts of speech - sentences - phonics).
